GO System Dispatching & Messaging

GPS Tracking with:

Two-Way Messaging

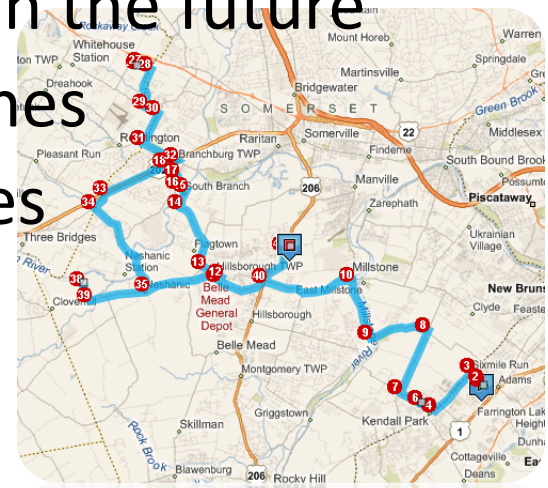

Job Dispatching

Driver Navigation

Features

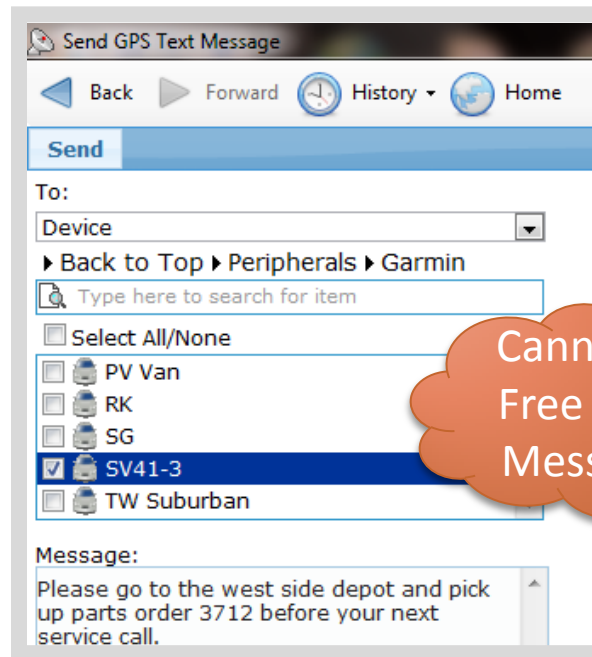

- ▶ Works with GO4v3 OBD units
- ▶ Garmin powered by GO unit so message delivery when ignition is off at time of “heartbeat”
- ▶ Optional service that can be added in the future
- ▶ Far less expensive than cellular phones
- ▶ Works with several Garmin unit types
- ▶ Provides real-time traffic data

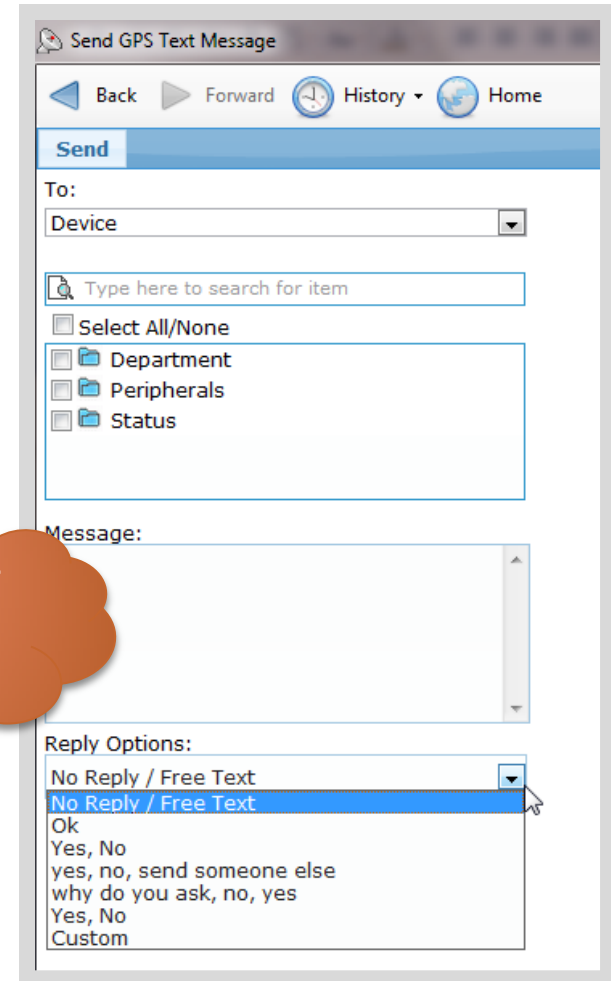

Garmin Integration

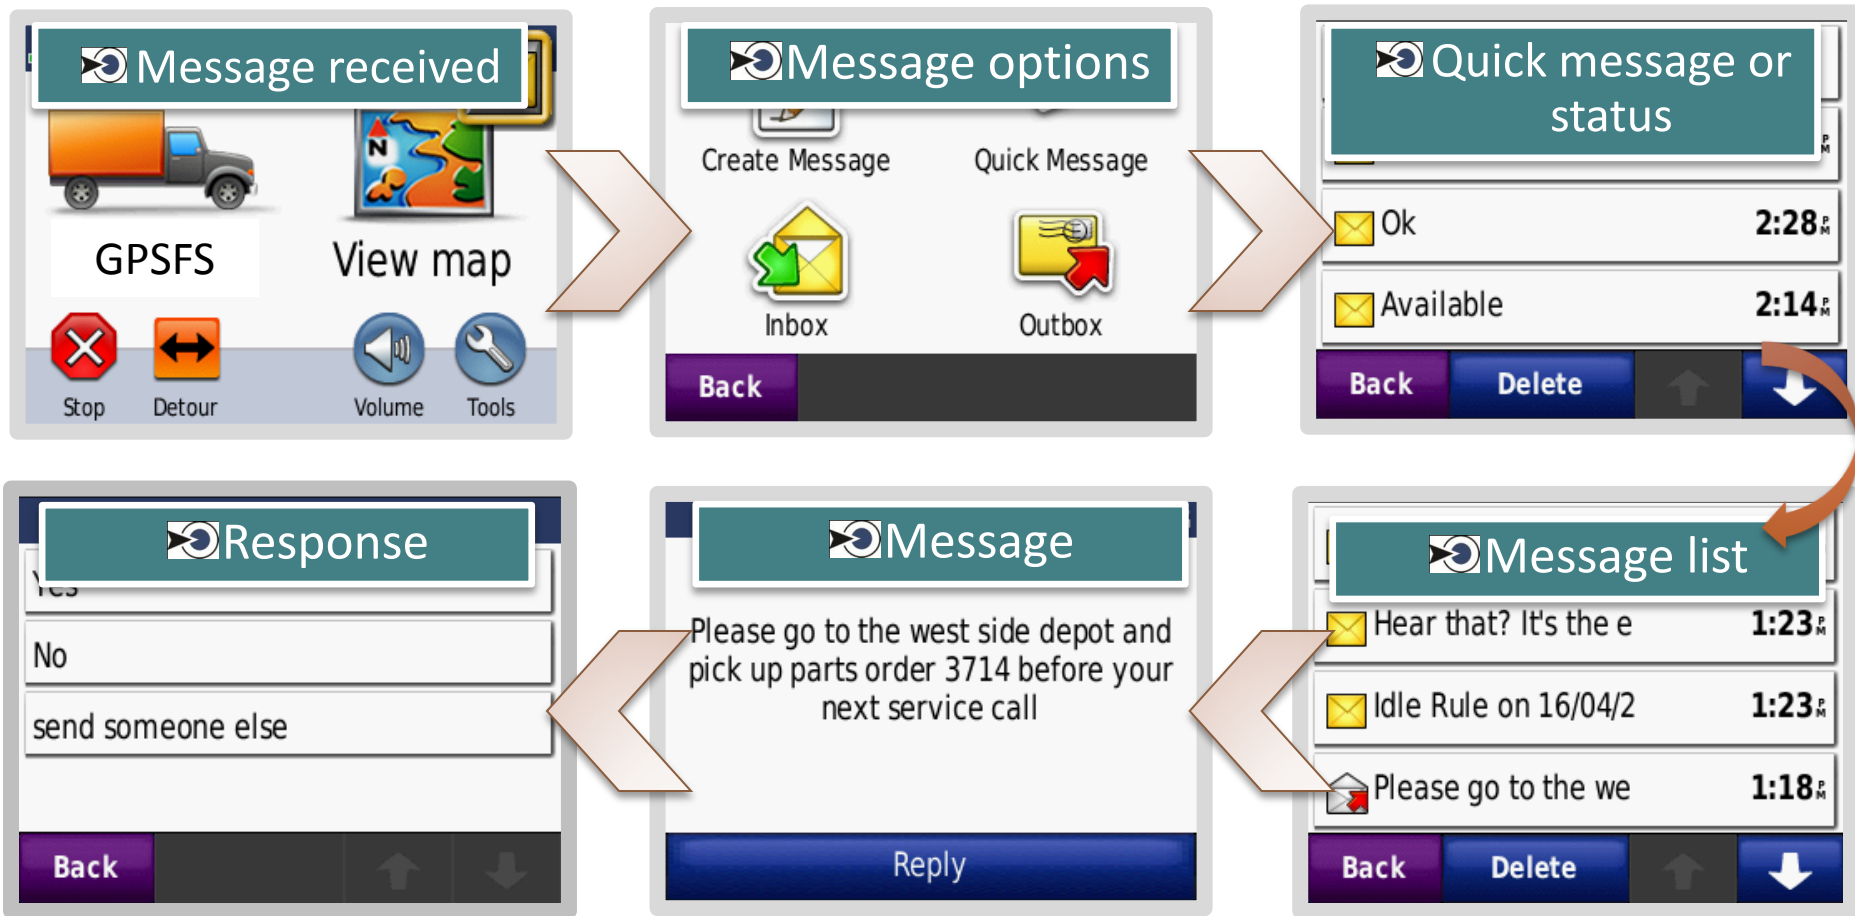

- ▶ Two-way messaging
- ▶ Driver navigation
- ▶ Job dispatching
- ▶ Optional service

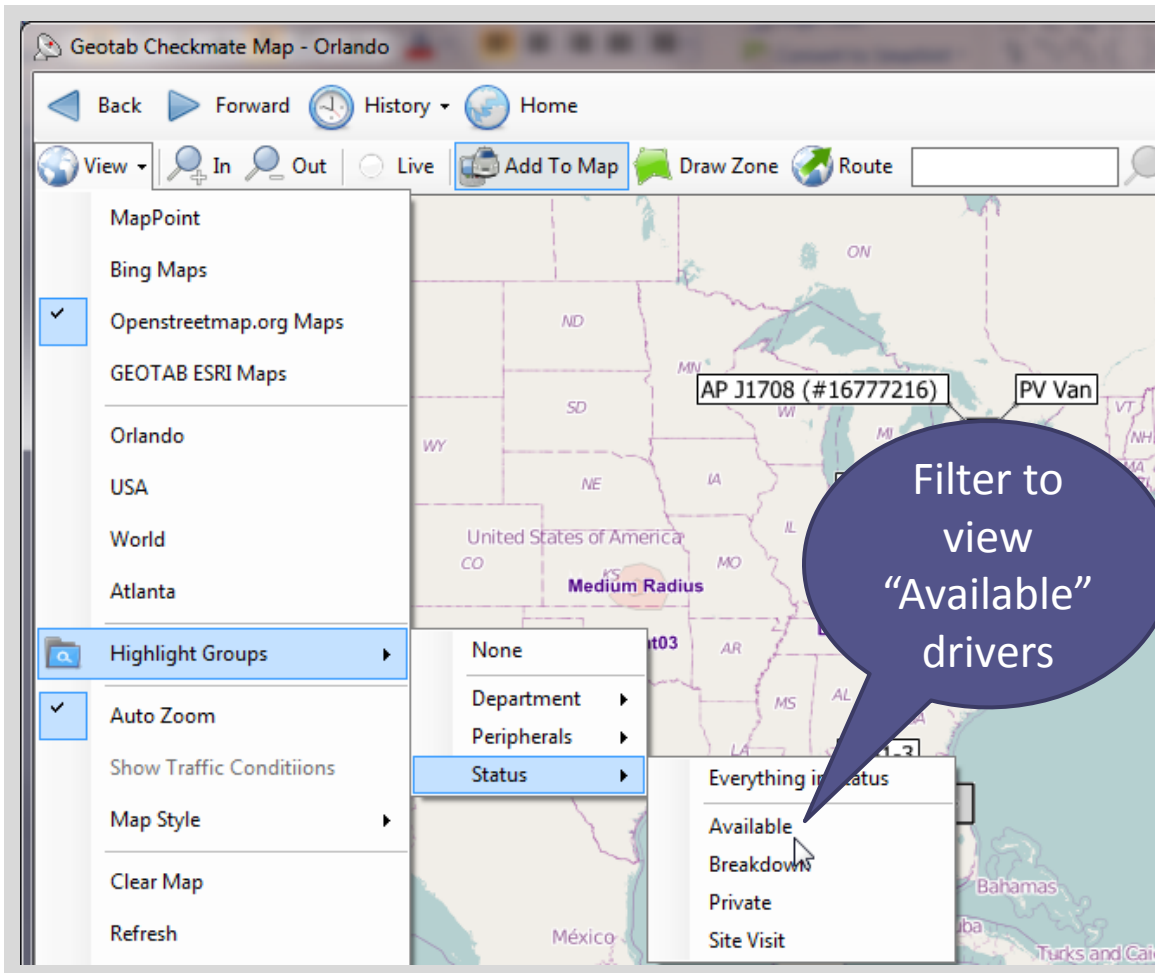

Canned or Free Form Messages
